THE REASON FOR DELAY

STOCKHOLDERS IN POWER PLANT COMPANY HOLD MEETING.

Directors Criticised for Not Going Ahead with the Building-An Explanation.

A meeting of some of the stockholders who subscribed to the fund being raised to build a large power house on the ground at New Jersey and Washington streets was held at the Commercial Club yesterday afternoon to begin an investigation of the reason for delay in beginning work on the building. The stockholders present appeared to complain of the slowness of the board of directors in getting things under way. The Indianapolis Power Plant Company, of which H. E. Kinney is president was organized for the purpose of building

Charles E. Coffin, W. M. Taylor and A Burdsal were the directors present at the meeting and Mr. Coffin sought to explain to the stockholders the cause for delay. The stockholders were, apparently, not satisfied, as they appointed a committee to confer with the directors and see just where the corporation stands. The chief objection of the stockholders seems to be that the company is too slow in going or with the work. Some of the stockholders had heard that the officers of the company were trying to dispose of the ground where he plant was to be built. This, the stock-olders who were present, seriously obected to. They want the plant built. The nost of the stockholders in attendance at the meeting yesterday live or own property in the neighborhood of where the plant is to be built. The committee appointed to discuss matters with the directors was Andrew Steffen, Ferd A. Mueller, William B. Holton, H. C. Dewenter, Franklin Vonnegut and John W. Schmidt. C. E. Coffin said, last night, that there

had been no intention of abandoning the project. He explained as the reason for delay that the amount of stock sold up to this time was not deemed sufficient to warrant the directors in proceeding with the building. He said that about \$30,000 worth of stock has been subscribed. The company was incorporated at \$300,000 capital stock.

Financial Policy.

"Just a penny," was the earnest request of about three hundred women who canvassed this city yesterday for small contributions for a "Thanksgiving donation" for the Indianapolis Free Kindergarten and Children's Aid Society. They met with great success, nearly everyone whom they met responding with at least a penny, while others donated nickels, dimes, quarters and up to a nice crisp greenback of small denomination. The total amount collected has not been estimated, but it is believed that several hundred dollars will be added to the treasuries of the two or-

Higgins said yesterday that he will not resign as a member of the Council, and does not believe that he will be expelled by the other members of that body. He says there will be new developments in the case and is confident he will get a new trial. He says one of the jurors made statements that will aid him in securing The worn Carpet looks shabby a new trial, but this matter will be handled privilege of having the rule from outside, but this will not be allowed. Attorney Spaan says Higgins's case will be carried to the Supreme Court in case Judge Alford refuses to sustain the tion for a new trial, which will be filed within a few days. The point on which the case will be earried to the higher court will e the court's ruling in allowing the evidence of Joseph Schaf, of the American Brewing Company, to be admitted. The counsel for the defense objected to Mr. Schaf's testimony and when Judge Alford ruled against the motion to strike it out the defense took an exception. Attorney Spaan says Mr. Schaf's evidence could not be brought into the case as showing a system or as fixing his guilt. Mr. Schaf testified that Higgins approached him in reto the ordinance to tax brewers in he city and said he could fix it so that it would not pass the Council for twelve or thirteen hundred dollars. The attorneys for the defense said this offer did not constitute an offer to accept a bribe. In case a new trial is denied Higgins he will have to go to prison pending a decision of the

A few of the Republican councilmen met yesterday and discussed the Higgins case. It was practically agreed, it is said, that a resolution will be offered at the next meeting of the Council to expel him. One member of the Council said: "Since Higgins has been convicted in the Criminal Court on the charge of soliciting a bribe for his influence in the Council it is necessary for us to take a hand in the matter and get rid of such a man. This step will undoubtedly be taken."

PROF. DINSMORE'S LECTURE.

Prof. Thomas H. Dinsmore, of Syracuse, N. Y., delivered the second lecture of th Y. M. C. A. course last night at Plymouth Church before a large audience, which was greatly interested in the subject of his lecture, "The Wonderful Structure." He spoke of the different chemicals which are found in the human body, illustrating hi talk by chemical experiments from the platform. Among the elements found in the body of man, as Mr. Dinsmore stated, are oxygen, hydrogen, nytrogen, phosphorus carbon, iron, cloridium, sodium, nitri acid, nitroglycerin, potassium, magnesia sulphur, etc. Professor Dinsmore also advanced the theory that the time may come when scientists, by the use of chemicals, may produce life. He said it did not seem more impossible than did the invention of the telegraph in years gone by, when peo ple laughed at the idea that thought could Atlantic cable. The third lecture of the course

joint representative from Laporte and Starke counties, will introduce a bill at the coming session of the Legislature for the repeal of the Circuit Court ditch law. It is asserted that there are but two counties in the State where drains are constructed under this law. Starke is one of these counties, and word comes from that part of the State to the effect that the abuse of the law is so offensive that the people strongly favor its repeal. During the campaign Mr. Kelley made the repeal of the ditch law an issue, and it is said he considers his election due, in the main, to his pledge to the people to attempt to se-cure this legislation. Mr. Kelley will go before the committee on drains with abundance of proof, it is announced, of the abuse of the Circuit Court ditch law in Starke and Laporte counties. It is reported that Senators Wood and Crumpacker have expressed themselves as favoring the repeal of this law.

mails; Charles E. Clifford, Frankfort, IT WILL DECIDE THE HIGH SCHOOL FOOTBALL CHAMPIONSHIP.

> Both Teams Have Been Training Hard for the Battle-Comparisons in Weight.

The big game between the Indianapolis High School and the Manual Training school championship of the city will be 2 o'clock. From a point of rivalry the game will be as interesting as the big college game between Indiana and Illinois played last Saturday. This game is the principal one between the two teams this season, and they have both trained for the contest to decide the championship of the two high schools Both elevens have MYSTIC SHRINE DEGREES been playing better football this fall than ever before, and it is hard to pick a winner. Should the rain, which was falling last night, cease and the day be bright and the ground hard the I. H. S. boys

have an opportunity to display their worth, but should the weather be similar to last Saturday the M. T. H. S. team will have the advantage because of its heavier line The Training School boys expect to tear hig holes through their opponents' line, while the I. H. S. boys have been training for just such attacks, and the concerted efforts of the men and trainers have been directed to make the line as formidable as possible. M. T. H. S. has a slight advantage in weight, but nothing to boast 2 to 4 o'clock yesterday afternoon. After 4 of as compared with the advantage in

YALE AND HARVARD.

All Ready for To-Day's Battle on the New Haven Gri iron.

NEW HAVEN, Conn., Nov. 23 .- All is in eadiness for the great game between Yale and Harvard to-morrow on Yale Field. Indeed, the first Harvard contingent arrived in the city to-night on a train of ten paror cars from Boston. With the arrival of that company of "crimson" supporters the first money to be wagered on the game from Harvard supporters appeared. The Harvard men demanded odds of 10 to 7. The city is decorated in both blue and crimson, but the Yale blue predominates. Store windows, the fronts of buildings near the campus, carriages, etc., bear much

A number of prominent old Yale athletes are in the city, and to-night a few old Harvard men came to town. But most of the latter have remained in Meriden with the Harvard team. for the battle. Straw has been spread over the gridiron to keep off the rain in case a shower should come and to keep the frost out of the ground. This afternoon It is announced that Charles C. Kelley, the gridiron was just right. The new additions to the stands are all ready and the entire appointments at the field seem to be in place. The Yale eleven and some of the substitutes will spend the night at the college infirmary on Prospect street.
In the hotel lobbles to-night there is in tense excitement. The feeling in this city is that the game will be a close one. The odds in what little betting there is favor Yale slightly, and the confidence of the Yale coachers is great. The players do not express themselves. The Harvard men in town seem to be just as confident as

the Blues' supporters. The Yale eleven had its final practice on Yale field this afternoon. The coachers did not ask for a line-up, and the men were only sent through a single practice. The men all appear to be in excellent health and fit to fight a hard long battle. The probable line-up to-morrow will be Left end, Gould; left tackle, Bloomer; left guard, Brown, captain; center, Olcott; right guard, Sheldon; right tackle. Stillman; right end, Coy; quarter back, Fincke; left half back, Sharpe: right half back. Chadwick; full back, Hale, Head Coach McBride stated to-night that the coachers have not definitely decided about quarter back and left half back.

The Cambridge Team Fit to Fight MERIDEN, Conn., Nov. 23 .- At the close of the final practice of the Harvard eleven this afternoon Coach Dibblee said: "The team is in great form; every man knows his position down to the ground and fits perfectly into the team tactics. They will play a heady, gritty game."

Coach Lewis said he feels very optimistic, as the men are in such condition that the chances against Yale should insure at least an even battle Trainer McMasters says the men will be n the pink of condition for the game tomorrow. The men themselves are cheerful

and hopeful. The team left its dressing quarters this afternoon in a frisky mood, and on its arrival at the field the 'varsity and substitute teams immediately went into signal practice. The work was lively. Cameron, Forbes, Harding ('89), Lewis, Dibblee and McMasters followed around with the team. Special attention was given to the backs, who show much improvement in speed Kendall especially playing a lightninglike game both in help and in the plays and in running the ball himself. Ellis and Swain showed fast work. Campbell and Hallowell both seemed for the first time this year to be back to their old form of last season. Eaton appeared to be a trifle slow and received special coaching from Dibblee. Practice in punting followed. Hallowell and Campbell ran down under the

kicks from the forty-yard line and made four out of six tries. The two misses were

THE CHURCH CROWDED.

Evangelist Harrison Urges His Hear-

Evangelist Harrison delivered one of hi characteristic exhortations, and at is close made a strong appeal to those in the congregation who were backward in going to the mourners' bench to make a strenuous and immediate effort for personal salva-

He said there were many people who were always waiting for someone else to take the lead in everything they did, but salvation could only be attained through individual effort. When he had concluded his remarks he called upon the congregation for a Christian testimonial, and nearly every one present arose. Mr. Harrison urged and encouraged others to rise by exhorting them from the top of the pulpit. There was much religious fervor in the meeting and at its close the evangelist said that it had been one of the best of the series. It has not yet been definitely decided when Mr. Harrison will bring his meetings to a close, but it is said he may do so within the next few days.

Revival Services Concluded. The revival meetings at Hall-place Church concluded Thursday night with th conversion of five people, making a total of ninety-four during the revival. The meetings were conducted by Mr. Reed and were very successful.

SENT TO THE HOSPITAL.

Martin Zimmerman Claims He Is Not

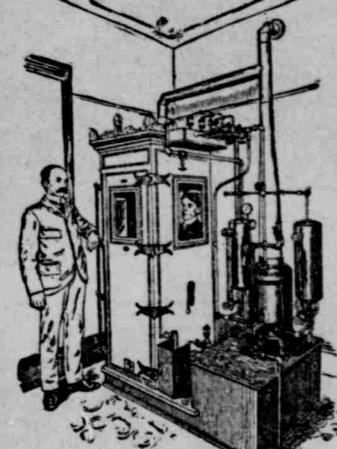

Bicycle Policemen Streit and Hauser yesterday had an experience that has demonstrated to them that their bicycles are more reliable than horses. They were sent to take Martin Zimmerman, living at 2521 East Eighteenth street, to the insane hospital. They started in a cab, but the horses balked so many times that they had to send for another team and they were an hour and a half in reaching the place. Zimmerman is known to all the police, having been sent to the hospital a number of times before. He says he is not insane, and the last time he was released he went to Ohio to escape. He returned a few days ago and his wife had him committed yesterday. Zimmerman told the police he had as much reason as anyone and said he had been sitting up with his daughter, who is ill with typhoid fever, to give her medicine. Yesterday morning he says, his wife left him to care for his daughter while she went to the hospital He says she represented that she was going after his release and instead she secured a recommitment.

To Shorten the B. & O. Main Line.

Surveys are now being made for a new railroad which is to be built by the Baltimore & Ohio after the beginning of the year, and which is designed to give that company a shorter line between Pittsburg and Chicago. The new road will run almost in an air line from Pittsburg to Canton, O., and will be extended on to Warwick, where it will strike the present main line to Chicago. This connecting link will shorten the distance between Pittsburg and Chicago by twenty-three miles, and will also give the punts, Daly and Swain catching in back Baltimore & Ohio an entrance into the pot-neld. Indianapolis, Ind., Nov. 18, 1908. I want everybody to know what the Depurator Treatment has done for me. I have been sick for over a year and some of my troubles were ten years old. I had tried all sorts and kinds of medicines, but kept getting worse. I had catarrh in its worst form and it was so bad that I could not eat any solid food and only took a little milk. The doctors told that the catarrh had gone into stomach and I took their med day's work. I heard about the Depurator Treatment and went over two months. I am feeling and working every day. I have gained eleven pounds and am wonderfully pleased with my condition. I surely recommend all sufferers from catarrh or any disease to go to the Depurator Medical Institute and they will never regret it. I have seen wonderful results there in Cousumption, Asthma
